

U.S.C.G. Approved Ladders

DJM Series - Pilot Ladders

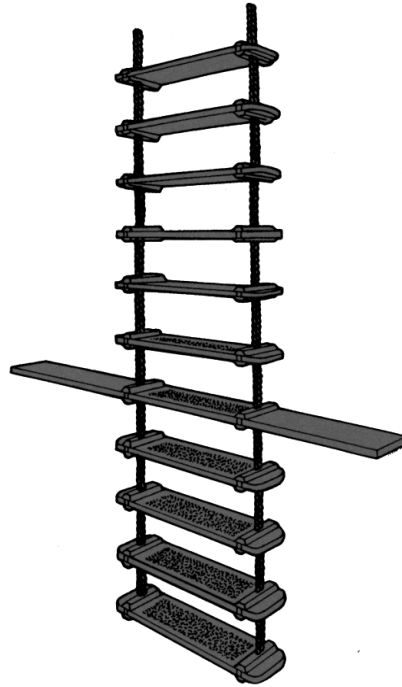

U.S.C.G. Approved
Pilot Ladders.
Two Models
to Choose from:

DJM I

- All steps are Hardwood (except bottom 4 steps that are synthetic to withstand greater impact)
- Painted International Orange

DJM II

- All synthetic Pilot Ladder
- All steps and clamps are made from Dupont^R High Impact Strength Surlyn HP

Erik Series - Debarkation Ladders

U.S.C.G. Approved
Debarkation Ladders.
Your choice of two Models:

ERIK I

- All steps are Hardwood
- Painted International Orange

ERIK II

- All synthetic Debarkation Ladder
- All steps and clamps are made from Dupont^R High Impact Strength Surlyn HP

Both Erik models replace old style chain debarkation ladders to comply with U.S.C.G. regulation change of July, 1986

Clamp

All U.S.C.G. ladders have the A.L. Don Co. patented clamp that was designed for quick step replacement with no special tools.

All U.S.C.G. Ladders tested to 2000 lbs. Steps tested to 700 lbs. with no more than 3/4" deflection. Side ropes of blended polyester/polypro with orange inner safety core.
